## Cable News SULZER NOW NEW YORK'S GOV.

ALBANY, New York, January 1.—Before a great concourse of interested people, including most of the prominent Democrats of the State, William Sulzer was inaugurated into office as Governor of the State of New York, today, with all the ceremony fit for such an occasion.

## Over-Night Wireless To the Advertiser

Actual construction upon the great exposition buildings at San Francisco dates from the breaking of ground for the machinery hall this afternoon, when over 100,000 persons witnessed the ceremonies.

President Taft, upon returning to the White House, requested to be informed of the situation in Mexico, so that he might consider what action to take in pursuance of the ultimatum which he prepared and sent to President Madero previous to his departure for Panama on December 19.

The meeting of the Balkan peace conference was interrupted suddenly this afternoon by Michael Madjaroff, the Bulgarian minister in London, who is acting as a Bulgarian delegate, rising and leaving, after making the statement that he was going to the British foreign office to inform the authorities there that the Allies were going to resume the war.

Contracts for eight submarines were awarded at the navy department today, the work being divided between the Lake Torpedo Company, of Bridgeport, Connecticut, and the Electric Boat Company of Quincy, Massachusetts, the former to build three and the latter five.

At the present time the submarines under construction are seven on the Atlantic Coast.

The first package sent by the parcels post was delivered at the home of President-elect Wilson in Cleveland late at seven minutes past midnight this morning. It contained two dozen fine Jersey apples from the Woodrow Wilson Club of Princeton, as a New Year's greeting.

The result of a conference of an hour and a half between President-elect Wilson and Oscar Underwood, Democratic floor leader of the house, at the State House may be summed up as follows:

First—An extra session will be called at the earliest possible moment. Probably it will be the first act of the new President, and the lawmakers will convene about the middle of March.

Second—The tariff will be revised in every schedule, and the various schedules may be enacted separately in order to expedite matters, unless it is possible to rush the tariff through as a whole.

Third—The tariff will not be the only legislation considered at the extra session; other important matters will be brought up, among these probably will be the Jones measure, calling for provisional government of the Philippines for eight years and ultimate independence for the islands.

Having abandoned further effort to gain admission to the United States, General Cipriano Castro, the ex-president of Venezuela, spent New Year's today in detention at the immigration station on Ellis Island, angered at the hostility shown him here.

The thirty-eight union men convicted at Indianapolis arrived at the Federal penitentiary at Leavenworth, Kan., at seven o'clock this morning. The trip was made without mishap or incident.

The men immediately began serving their sentences. The prisoners were received by the wardens and each signed the prison book. Then they were bathed, their heads shaved and each donned prison clothes. The men were given numbers and ordered to learn the prison rules.

The long-expected resignation of J. Bruce Ismay from his position as chairman and managing director of the White Star Line has been announced. It will take effect June 30. It has been looked for since the inquiry into the sinking of the Titanic, on which he was a passenger, last spring.

## BRISK REAL ESTATE TRANSACTIONS KEEP LOCAL OFFICES BUSY

Real estate was active in Honolulu throughout the last year. Without boom features, there was a steady movement of dwelling sites right along. Some of the established new tracts were practically sold out, to some extent considerable blocks being purchased on speculation for the use expected after the opening of the Panama Canal. That a very large proportion of the sales have been to immediate home builders, however, it is evident from the building record.

Development was particularly in evidence up Nuuanu Valley, above Wilkie street, and in all Manoa and all Kaimuki, while Kalia also shared not a little in the distribution of land to home-seekers. Various new tracts in different quarters including the regions already mentioned, were put on the market and met with a good demand.

Among the favorable symptoms mentioned by financial men is the high favor with which real estate is regarded by investors. A good deal of the bank and savings bank deposits drawn during the year was put into home sites by the thrifty. An advance in the prices of land is also noted. Sales of lots by the government, both in the city plot and on the suburban sea beaches, realized figures far above the upset prices. Transactions in business sites were not many, but those that took place indicated an undoubted appreciation of this class of property. Expert evidence in the condemnation suits of the federal government for a postoffice site showed that property in the business section has acquired a higher value than ever before, from which there is no probability of its ever receding.

## WIRELESS MAKES GREAT STRIDES AHEAD; COAST SERVICE IS ESTABLISHED

Hawaii is now leading the world in commercial wireless lines, as years ago, the island territory led the world in the installation of the telephone. The first complete press message from the coast was handled by the Marconi company on February 23. The completion of the Poulsen company into Hawaii has been one of the year's features. The Federal Telegraph company, which handles the Poulsen Wireless, accomplished some remarkable things during the year. On July 28 it opened regular communication with the mainland for night messages one of the features being the establishment of a night press service for the morning newspaper.

This was accomplished by the erection of a powerful station at Kaneohe. On November 16, the first regular day messages were exchanged between Honolulu and the mainland, the Star-Bulletin transmitting the first messages across the Pacific by this method. On November 16, 17 and 18 a number of messages were interchanged. A few days ago the Kaneohe station talked with the station at Arlington, near Washington, D. C. a distance of 5,000 miles.

The United Wireless company, the local corporation name of the Marconi system, has already made great strides during the year. Messages have been exchanged with the coast but no regular service yet established. The Marconi system, however, will be established early this year on a big scale. Plans were announced December 30 for the erection of the biggest wireless station in the world here and so powerful will it be that daylight communication with both the mainland and the Orient has been assured.

## HEADACHY, BILIOUS, UPSET? "CASCARETS"

Bilious, throbbing headache means Bowels are clogged and liver stagnant—you need Cascarets.

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleaning up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and your head clear for months. Children love to take Cascarets, because they taste good and never grip or sicken—advertisement.
